

Carbon Reduction Plan

Supplier name: CC33 Global Ltd

Publication date: 28/04/2025

Commitment to achieving Net Zero

CC33 Global Ltd is committed to achieving Net Zero emissions by 2045

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2024	
Additional Details relating to the Baseline Emissions calculations.	
<p>This is the first time we have reported our carbon footprint so this calculation establishes our baseline. It is based on our financial accounting year of January to December</p> <p>Our Baseline calculation includes:</p> <ul style="list-style-type: none">• Scope 1: Direct Emissions• Scope 2: Indirect Emissions• Scope 3 Categories: 4: Upstream transportation & distribution: 5: Waste generated in operations: 6: Business travel/Hotel stays: 7: Employee commuting/Teleworking: 9: Downstream transportation & distribution: <p>Our Baseline deviates from the requirements under PPN 06/21 as follows:</p> <p>N/A</p>	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	61 tCO ₂ e
Scope 2	62.4 tCO ₂ e
Scope 3 (Included sources as detailed above)	211.8 tCO ₂ e
Total Emissions	335.2 tCO ₂ e

Carbon Reduction Plan

Current Emissions Reporting

Reporting Year: Jan 2024 to Dec 2024	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	61 tCO ₂ e
Scope 2	62.4 tCO ₂ e
Scope 3 (Included sources as detailed above)	211.8 tCO ₂ e
Total Emissions	335.2 tCO ₂ e

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 255.4 tCO₂e by 2029. This is a reduction of 23.8 %

Progress against these targets can be seen in the chart below:

Carbon Reduction Plan

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2024 baseline and the measures will be in effect when performing the contract.

- All 4 company cars are EV's and charged on renewable electricity
- Implement lock up procedure to ensure all items and lights are off
- Engage waste disposal company to ensure maximum recycling of waste and minimal incineration
- Reception lights activated on PIR sensors

Future Carbon Reduction Initiatives

In the future we hope to implement further measures such as:

- Negotiate with landlord to use renewable office energy
- Reduce business travel emissions by only visiting South Africa quarterly
- Reduce commuting emissions by increasing working from home and awareness of the benefits of car sharing
- Reduce commuting emissions by exploring 'Bike to work' scheme

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans. Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:

Name: Paul Fletcher
